+ **Timex Ironman Sleek 150-Lap TapScreen**

Who hasn't missed a split time while fiddling to find the lap button during a run? With the new TapScreen from Timex you can literally just touch the watch's face, like with an iPhone, to get your splits. The watch includes all the usual Ironman bells and whistles, including a 100-hour chronograph, a 100-meter water-resistant case and a sleek strap to minimize skin contact. **\$90, timex.com**

Find It: Feet First, 4949 4th St. North, St. Petersburg and 3401 Bay to Bay Blvd., Tampa. feetfirstrunning.com
