It's not how much you spend on a watch; it's how you spend it. For example, the Timex T Series Vivid Color Chronograph is a great value at \$150 because it has multiple functions, like a stopwatch and night light. The mechanical, self-winding Bulova Accutron Eagle Pilot is made of ultra-durable stainless steel, and the Citizen Eco-Drive Signature Grand Complication never needs a new battery. Here are some stylish watches that fit a variety of budgets.
